Meeting Details		
Meeting Objective: Get SRS, Github Started		
Date: 02/20/26	**Time:** 7:00pm	**Location:** Discord Call
Attendees: Tochi, Daniel, Monisha, Nikki		
Absentees: Sadhvik		

Agenda	Notes
Access to Github	Nikki added each member into shared github project
Link Documents to Github	Daniel created the github wiki page linking the group's slide presentation, brainstorming requirements document, and SRS document.
Discuss Functional/Non-Functional Reqs	All members at the meeting discussed what requirements are possibly functional or non functional from what group members have had on slides presentation. Tochi organized and split up the "Top 10 Requirements" slide into Functional and Non-Functional sections for SRS idea purposes.
Organize + Set up SRS for Next Meeting	Monisha edited and tidied up the SRS document.

Action Plan		
Action	**Assigned To**	**Due Date**
Brainstorm Final Ideas for Functional/Non-Functional + Overview in SRS	All members	By next meeting

Meeting Details		
Meeting Objective: Delegate Tasks, Share Brainstorm Ideas		
Date: 02/27/26	**Time:** 6:30pm	**Location:** Discord Call
Attendees: Tochi, Daniel, Monisha, Nikki, Sadhvik		
Absentees: none		

Agenda	Notes
Share brainstorm ideas	Tochi shared class candidate ideas (small description, some attributes, methods) Nikki shared Specific Module ideas (ex: Player, TableGame, Server, etc.)
Who Does What Section	See Action Plan for more details..

Action Plan		
Action	**Assigned To**	**Due Date**
Work on Meeting Minutes, Gantt, Constraints	Mainly : Nikki w/ anybody else who has ideas	03/05/26
Dependencies	Mainly : Tochi w/ anybody else who has ideas	03/05/26
Functional Req: Modules	Mainly : Monisha w/ anybody else who has ideas	03/05/26
Non-Functional Reqs	Mainly : Daniel w/ anybody else who has ideas	03/05/26
External + Internal Functional Reqs, Top 10 Requirements Slides	Mainly : Sadhvik w/ anybody else who has ideas	03/05/26

Meeting Details		
Meeting Objective: Finalize Parts of SRS		
Date: 03/02/26	**Time:** 9pm	**Location:** Discord Call
Attendees: Tochi, Daniel, Monisha, Nikki, Sadhvik		
Absentees: none		

Agenda	Notes
Brainstorm Ideas	Monisha shared her ideas for each module. (Tochi/Monisha/Daniel) Discussed what max. number of game tables should be. Concluded with 5 tables for now. (Daniel/Tochi/Sadhvik) Discussed how the system will handle an infinite number of concurrent players & dealers.
Work On SRS Together	Monisha - worked on User/Server/Game Logic Modules Tochi - worked on Assumptions + Networking Module Daniel - worked on Non-Functional Reqs Sadhvik - worked on External+Internal Nikki - worked on Client/GUI Module + Meeting Minutes + Gantt

Action Plan		
Action	**Assigned To**	**Due Date**
Class Candidates	All members	03/05/26
Use Cases	All members	03/05/26
Diagrams	All members	03/05/26

Meeting Details		
Meeting Objective: Section 3 (References) of SRS + Work On Slide Presentation		
Date: 03/03/26	**Time:** 9pm	**Location:** Discord Call
Attendees: Tochi, Daniel, Monisha, Nikki, Sadhvik		
Absentees: none		

Agenda	Notes
Work On Slide Presentation (Class Candidates + Top 10 Reqs)	Sadhvik shared ideas on class candidates Monisha + Daniel worked on finishing the Top 10 Reqs
Brainstorm	Tochi, Daniel, Monisha, & Nikki reviewed what different UML Diagrams were. Tochi, Daniel, Monisha, & Nikki discussed the actors for the use case specs., concluding with them being: Dealer & Player Nikki created a separate document for the Use Case Specifications to be worked on.

Action	Assigned To	Due Date
Class Diagrams for 5 Class Candidates	Sadhvik	03/04/26
Think of 1-2 Use Case Specifications	Monisha, Tochi, Daniel, Nikki	03/04/26
Discuss How to assemble UML Case + Sequence Diagrams	All members	Agenda for Next Meeting

Meeting Details		
Meeting Objective: Finalize Presentation + Work on UML Diagrams		
Date: 03/04/26	**Time:** 9pm	**Location:** Discord Call
Attendees: Daniel, Monisha, Nikki, Sadhvik		
Absentees: Tochi (sick)		

Agenda	Notes
Slide Presentation (Class Candidates)	Daniel is adding in information from Class Diagrams into “5 Class Candidates” + What we’ve agreed on for Top 10 Reqs Slides We all agreed on who presents what (Monisha: Overview, Daniel/Nikki: Top 10 Reqs, Tochi/Sadhvik: 5 Class Candidates)
Use Cases	Monisha is adding and editing the format for our Use Case Specs. Document Sadhvik is working on a Sequence Diagram (Use Case ID: 001, Player Joins Table) Nikki is working on a Sequence Diagram (Use Case ID: 003, Player Action: “Hit”)
SRS	Nikki is editing the SRS format We all agreed we’re going to add all the references (Use Case Specs + Other Diagrams) to the bottom of the SRS.

Action	Assigned To	Due Date
Sequence Diagram (ID:001)	Sadhvik	03/05/26
UML Case Diagram	Monisha	03/05/26
Sequence Diagram (ID:003)	Nikki	03/05/26

Meeting Details		
Meeting Objective: Rework Diagrams + Presentation		
Date: 03/05/26	**Time:** 9:30pm	**Location:** Discord Call
Attendees: Tochi, Daniel, Monisha, Nikki, Sadhvik		
Absentees: none		

Agenda	Notes
Slide Presentation	Tochi & Daniel revised the requirements slide.
Class Candidates	We all agreed on having Server and Client as one of the 5 class candidates. Also brainstormed the connections with User, Dealer, Player. All talked about how to incorporate saving data.
Use Cases	Monisha, Nikki, & Daniel worked on use cases and tweaked them.

Action	Assigned To	Due Date
Rework Class candidates	Sadhvik	03/06/26
UML Case Diagram	Monisha	03/06/26
After Getting Class Diagram, tweak Sequence Diagram to go according to Class Diagram, then work on the slide: Class Candidates	All members	03/06/26

Meeting Details		
Meeting Objective: Finalize Everything		
Date: 03/06/26	**Time:** 9:00pm9pm	**Location:** Discord Call
Attendees: Tochi, Daniel, Monisha, Nikki, Sadhvik		
Absentees: none		

Agenda	Notes
Class Candidates	Sadhvik shared the new version of the class diagram after discussing what they would be with group from last meeting
Presentation	Daniel Edited the layout of the Class Candidate slide + Pasted the different classes into them Sadhvik wrote descriptions for each candidate
Sequence Diagram	Nikki Edited Sequence Diagram, basing off of class diagram after Sadhvik explaining the class candidates
SRS	Tochi Edited Non-Functional Monisha has shared the UML Case Diagram and edited the layout of the SRS.

Action	Assigned To	Due Date
None until next task in class		

Meeting Details		
Meeting Objective: Finalize UML Diagrams		
Date: 03/31/26	**Time:** 1:00pm	**Location:** Discord Call
Attendees: Tochi, Nikki, Sadhvik		
Absentees: Daniel, Monisha		

Agenda	Notes
Sequence Diagrams	Sequence Diagrams to work on: - Sign Up/Login (Tochi) - Turn Order (Tochi) - Player Action Stand (Daniel) - Player Action Fold (Daniel) - Cashout (Monisha) - Join Table (Monisha)
Class Candidates	Sadhvik will add in associations with each class in UML Diagram
Interface	Tochi will draw a layout of the GUI
Use Cases	The amount that we had seemed sufficient

Action	Assigned To	Due Date
Work on Class Diagram	Sadhvik	04/02/26
Work on Sequence Diagrams	Tochi, Monisha, Daniel	04/08/26
Meeting Minutes, Workload, Gantt Chart	Nikki	04/08/26
UI Design Draft	Tochi	04/08/26

Meeting Details		
Meeting Objective: Finalizing DSD		
Date: 04/07/26	**Time:** 9:30pm	**Location:** Discord Call
Attendees: Nikki, Sadhvik, Daniel, Monisha		
Absentees: Tochi		

Agenda	Notes
Sequence Diagrams	Monisha added Sequence Diagrams 002,004,005,010,011 Sequence Diagrams to work on: - 001 : Create Account - 003 :Deposit Funds - 006 : Create New Table - 007 : Place Bet - 008 : Start Round(Dealer Begins Game) - 009 : Deal Initial Cards - 012 : Determine Winner/Payout - 013 : Replay Round/ Return Menu - 014 : Handle Player/Dealer Disconnect
Class Candidates/ Diagram	Sadhvik made GUI classes
Slides	We all discussed to input Class Diagram and zoom to each part for slides Continue discussion in next meeting for finalizing slides

Action	Assigned To	Due Date
Sequence Diagrams: 001, 003, 006	Daniel	04/09/26
Sequence Diagrams: 007, 008 + Add GUI classes into Diagram + Gantt	Nikki	04/09/26

Sequence Diagrams: 013,014	Sadhvik	04/09/26
Sequence Diagrams: 009,012	Tochi	04/09/26

Meeting Details		
Meeting Objective: Slides Presentation + Update on Sequence/Class Diagrams		
Date: 04/08/26	**Time:** 9:30pm	**Location:** Discord Call
Attendees: Nikki, Daniel, Monisha, Sadhvik (joined late)		
Absentees: Tochi		

Agenda	Notes
Sequence Diagrams	- Daniel took over Sadhvik's last action item (sequence diagrams: 013,014) + has drawn them out and just has to draw online + add to DSD - Prior to meeting, Monisha, Tochi, Nikki added in their sequence diagrams
Class Candidates/ Diagram	- Sadhvik is actively editing the class diagram tonight (message class, adjusting client class + GUIs) and will message us when he has completed them - When Sadhvik joined, he explained the problem with Client duplicating Player object so he is fixing that
Slides	- Monisha suggested a layout for the slides - Daniel + Nikki edited it out to the suggestion - Daniel edited the design format of it all - Nikki made zoomed in mini class diagrams for: Table, GameMangement, Client/Server (will add message later once diagram is done) - Sadhvik suggested to share the the relationships between table + gameManagement

	- Slide Presenting:
	  - Overview of Class Diagram - Sadhvik
	  - Client/Message/Server - Sadhvik
	  - Table - Daniel
	  - Relationship GameMngmt+Table - Tochi (if absent: Daniel)
	  - Use Case Diagram - Nikki
	  - Sequence - Monisha

Action	Assigned To	Due Date
Edit Class Diagram + Input Keypoints for Slides	Sadhvik	04/09/26
Edit Class Diagrams on Slides after class diagram is done + add 1 sequence diagram (008) + gantt	Nikki	04/09/26
Add 5 assigned sequence diagrams (001,003,006,013,014)	Daniel	04/09/26

Meeting Details		
Meeting Objective: Distribute Work (Implementation)		
Date: 04/16/26	**Time:** 9:30pm	**Location:** Discord Call
Attendees: Nikki, Daniel, Monisha, Tochi		
Absentees: Sadhvik		

Agenda	Notes
Implementation Distribution	- GUI + help with others (1 person) - Server/Client/Message (2 people) - Backend Classes (2 people)
Testing	- Make JUnit testing for specific classes each is assigned to + help with backend

Action	Assigned To	Due Date
Client + Message + Junit Testing	Tochi	05/05/26
Backend + Junit testing	Daniel	05/05/26
Backend + Junit testing	Monisha	05/05/26
GUI + smaller classes + help with any other + JUnit testing	Nikki	05/05/26
Server + JUnit testing	Sadhvik	05/05/26

Meeting Details		
Meeting Objective: Check In On Implementation Progress		
Date: 04/30/26	**Time:** 9:30pm	**Location:** Discord Call
Attendees: Nikki, Daniel, Monisha, Tochi		
Absentees: Sadhvik		

Agenda	Notes
Progress On Work	- Tochi has barebones of Client done - Monisha/Daniel have a few backend classes left - Nikki has half of GUI done - Sadhvik has started initial Server class

Clarify Details	- While discussing GUI:
	  - List of Game Tables will start with around 5 available tables and will increase by adding a couple more at a time as tables get full
	  - Dealer Operations for GUI buttons: Start game, reset round
	  - Flow: Player selects table, joins table, Player at table waiting for Dealer, Dealer joins table, Dealer starts game

Testdrive Game	- Either meet at the library Tuesday before class and/or try to run it at home Monday

Action	Assigned To	Due Date
Meet up with Sadhvik to work on Client/Message/Server to get a strong connection between them	Tochi	05/04/26

Work on Backend Classes	Daniel	05/04/26
Work on Backend Classes	Monisha	05/04/26
GUI + Update Class Diagram + UI Design in DSD	Nikki	05/04/26
Work On Server	Sadhvik	05/04/26
